To whom it may concern,

On behalf of Puttinu Cares Foundation, I am pleased to write this letter of endorsement for Benevo Bid, a promising organization that is making strides in the realm of charitable fundraising. We are enthusiastic about the potential impact that our collaboration can achieve.

Benevo Bid's innovative approach to online auctions offers a fresh and dynamic way for organizations like ours to engage with donors and supporters. Their platform stands out as a powerful tool to amplify fundraising efforts, allowing us to reach a broader audience and generate the critical resources needed to continue our mission of supporting children and families facing life-threatening illnesses.

Although our relationship with Benevo Bid is just beginning, their professionalism, vision, and commitment to excellence have already made a positive impression on us. We are confident that their platform will provide us with new opportunities to raise funds and awareness, helping us to enhance the support and care we offer to those in need.

We look forward to working closely with Benevo Bid and are excited about the possibilities this partnership holds. We believe that together, we can make a meaningful difference in the lives of many, and we wholeheartedly endorse Benevo Bid as a valuable ally in the world of charitable work.

Sincerely,

Rennie Zerafa
CEO
